Avaya
Solution Kit
Powered by CRI

All you have to do is ASK

Avaya Solution Kit:

Regardless of which version you select, the ASK delivers the full, rich Avaya Experience to your customer.

- Provides a real hands on demo thru SIP/H.323 hard phones, soft phone clients, Flare, even Mobile
- Customize your ASK with complete access to the Avaya administration screens
- We can enhance your ASK by integrating 3rd party VMware ready software
- All versions are turnkey, pre-administered and ready for action
- Clearly shows why and how Avaya can improve business
- All Avaya Aura software are current releases

The ASK coupled with CRI Care ensures that you are best positioned to win over new sales in the months & years to come ASK and you will Succeed!

CRI ASK EXPRESS

CRI Virtual Aura Server + AVAYA 8-Port POE Switch + Wireless Access PT

EXPRESS ASK: Smallest, lightest, lowest cost option for those looking for the Solution, but not necessarily packaged in a rugged case for transporting. Delivered in a reusable shipping box. Comes with extremely simple instructions to setup - 4 color coded cables and power cords. Designed for easy setup in the office, on the road, customer's conference room, and ideal for tradeshows.

This solution supports a soft gateway so no G430 hardware is required. The phones supported are H.323/IP/SIP or softphones. No analog/digital sets – that requires a physical gateway. **Price: \$27,000 Weight: 42 lbs**

CRI ASK CLASSIC

CRI Virtual Aura Server + AVAYA 8-Port POE Switch + Wireless Access PT

CLASSIC ASK: Same as the Express ASK, but comes with a very rugged easy transportable tradeshow quality carrying case. This travel case can be used for local or long distance (ie, FedEx/UPS) shipping scenarios. Comes with extremely simple instructions to setup - 4 color coded cables and power cords. Designed for easy setup in the office, on the road, customer's conference room, and ideal for tradeshows.

This solution supports a soft gateway so no G430 hardware is required. The phones supported are H.323/IP/SIP or softphones. No analog/digital sets – that requires a physical gateway. **Price: \$31,000 Weight: 42 lbs + 40 lbs suitcase = total 82 lbs**

CRI ASK – PREMIER

CRI Virtual Aura Server + AVAYA 24-Port POE Switch + Wireless Access PT

Power Strip,
Rails, Etc...

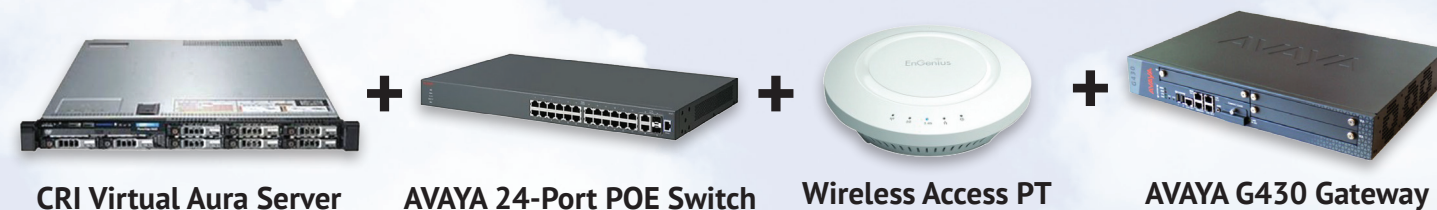

CRI
Assembly

PREMIER ASK: For the ultimate turnkey ASK solution. Delivered already assembled in a racked, rugged case ready for transport of any kind. This solution comes ready to demo to your customer by simply opening the case, plugging in the power cord and hit the on switch. Just 15 mins later your phones are ready to use with the latest Avaya software. This solution comes with a soft gateway so only H.323/IP/SIP hard phones are supported. Physical gateway would be required for those using non H.323/IP/SIP phone sets. **Price: \$33,000 Weight: 94 lbs**

CRI ASK – PREMIER PLUS

CRI Virtual Aura Server + AVAYA 24-Port POE Switch + Wireless Access PT + AVAYA G430 Gateway

Power Strip,
Rails, Etc...

CRI
Assembly

PLATINUM ASK: For the ultimate turnkey ASK solution. Delivered already assembled in a racked, rugged case ready for transport of any kind. This solution comes ready to demo to your customer by simply opening the case, plugging in the power cord and hit the on switch. Just 15 mins later your phones are ready to use with the latest Avaya software. This solution comes with a physical gateway. Physical gateway would be required for those using non H.323/IP/SIP phone sets. **Price: \$33,500 Weight: 105 lbs**
