

## **CRI *Enterprise Appliance Server* EASE**

### **Key Features and Benefits?**

Rapid remote install of your enterprise solution. Low budgetary commitment of a single 1U “state of the art” server versus 3-4 servers in a traditional deployment. Purchase offer includes 3-5 year Hardware Maintenance Inclusive (Same or Next Day) Support.

- Industry leading flexibility, scalability and reliability
- Cost savings derived from reduced hardware and simplified deployment
- Built on industry standard VMware platform
- Scalable to grow as your requirements demand

### **What type of support does CRI offer?**

**CRI Care** - CRI offers multiple Options of Support to meet the needs of your business. Each offer is based upon the Service Level required and the applications and products deployed within your organization. CRI Care choices offer complete flexibility ranging from a traditional T&M style offer to an all-inclusive premiere package. Within each option there is a common understanding about services, priorities, responsibilities, guarantees, and products covered.

### **How scalable is CRI EASE ?**

The **EASE** can be designed for “fit for purpose” or with extra headroom for future growth. Multiple EASE’s can be designed for larger enterprise deployments.

### **What are the customer requirements?**

- Fill in the CRI **EASE** Planning Form
  - Provide IP addresses
  - Directory & other integration information
  - Rack and Stack
  - Provide remote access

### **What is the turnaround time?**

After the customer planning meeting has been conducted and the contract is signed, the **EASE** can be shipped onsite in approximately 4-6 weeks for a typical 1 day installation.

## **CRI Enterprise Appliance Server EASE (*continued*)**

### **Are there deployment options?**

- VM staging only (no implementation of the application software)
- Can do this on a per VM basis or a bundled basis
- Full implementation (VM stage & implementation of application software)
- Either priced out in a ala-carte fashion or in bundled pricing

### **What vertical would this work best in?**

The EASE offer provides a platform for rapid deployment of the Avaya Aura Enterprise solution and/or any 3<sup>rd</sup> party software that is VMware certified. This offer benefits across all verticals looking to reduce their hardware footprint and more efficiently deploy & support these applications in their network enterprise.

### **What is the geographic availability?**

North America and Canada are the primary markets. Outside of the US needs to be worked on a case by case basis to validate the ability to ship hardware in that country.

### **How do people engage CRI for pricing, presentations or more information?**

Contact your CRI sales associate either directly or through your Business Partner. CRI Sales Associate information can be found at: <http://www.crinj.com/contact.php>
